Research Report – Update

Investors should consider this report as only a single factor in making their investment decision.

Orchids Paper Products Company

Rating: Speculative Buy

John Nobile
May 23, 2016

TIS $30.76 — (NYSE MKT)

	2014A	2015A	2016E	2017E
Revenues (millions)	$142.7	$168.4	$194.7	$215.9
Earnings per share	$1.11	$1.38	$1.58	$2.04

52-Week range	$32.77 – $21.63	Fiscal year ends:	December
Shares outstanding as/of 4/29/16	10.3 million	Revenue per share (TTM)	$17.45
Approximate float	9.1 million	Price/Sales (TTM)	1.8X
Market capitalization	$317 million	Price/Sales (FY2017)E	1.5X
Tangible book value/share	$10.96	Price/Earnings (TTM)	17.8X
Price/tangible book value	2.8X	Price/Earnings (FY2017)E	15.1X
Annual dividend	$1.40	Dividend Yield	4.6%

Orchids Paper Products, headquartered in Pryor, Oklahoma, manufactures bulk tissue paper, known as parent rolls, and converts parent rolls into a full line of tissue products, including paper towels, bathroom tissue and paper napkins primarily for the private label segment of the consumer, or "at home," market. The company has focused its product design and manufacturing on the discount retail market, primarily the dollar store retailers. (www.orchidspaper.com)

Key investment considerations:

Reiterating Speculative Buy rating. Raising 12-month price target to $35.00 from $32.00 previously due to increased 2017 earnings estimates.

The company's five-year growth potential is substantial due to geographic expansion; the 2014 acquisitions, and plant upgrades.

Total converted tonnage (from Oklahoma, Fabrica and South Carolina) should increase to 94,800 tons in 2016, up from 83,000 tons in 2015. With production from converting lines in South Carolina, we project Orchids will sell total converted tonnage of 100,900 tons in 2017.

We project 2016 revenue of $194.7 million and EPS of $1.58 per share. The change in our projections (previously $190.7 million revenue and $1.38 EPS) reflects 1Q16 results.

We project 2017 revenue of $215.9 million and EPS of $2.04 per share. The change in our projections (previously $212.5 million revenue and $1.88 EPS) primarily reflects continued growth in converted product sales driven by a full year of production from the two converting lines in South Carolina.

Orchids reported (10Q released 4/29/16) 1Q16 revenue of $47.7 million and EPS of $0.52. We projected 1Q16 revenue of $46 million and EPS of $0.32. In the year earlier quarter, Orchids generated revenue of $37.4 million and EPS of $0.14. 1Q16 revenue benefitted from increased converted product tonnage from the company's Oklahoma location and its supply agreement with Fabrica.

Please view our disclosures on pages 12 - 14.

Recommendation and Valuation

Reiterating Speculative Buy rating. Raising 12-month price target to $35.00 from $32.00 previously due to increased 2017 earnings estimates.

Shares of Orchids currently trade at a TTM EPS multiple of 18X, down from 20X in our last report and its average of 19X over the past twelve months. In light of TIS's diminished valuation, we lowered our multiple to 17X earnings (down from 18X previously). Applying a multiple of 17X to our 2017 EPS estimate gives us a year-ahead value of approximately $35.00 per share.

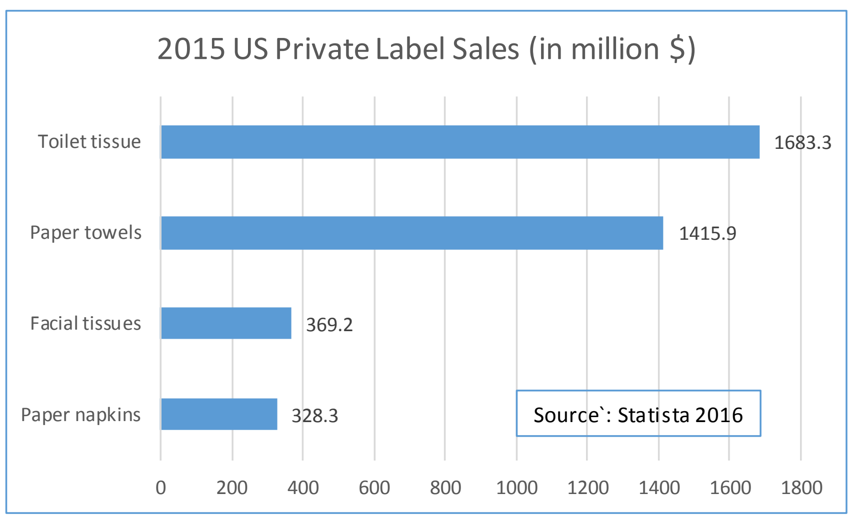
Business

Orchids Paper Products, headquartered in Pryor, Oklahoma, manufactures bulk tissue paper, converting it into a full line of tissue products, including paper towels, bathroom tissue and paper napkins primarily for the private label segment of the consumer or "at home" market. The company targets the discount retail market, primarily dollar store retailers, due to their consistent order patterns, limited number of stock keeping units (SKUs) and the growth in this channel of the retail market. Orchids has customers throughout the US, but its sales efforts are currently focused within a 500-mile radius of its Oklahoma facility or Fabrica's Mexicali, Mexico facility (which supplies TIS with converted products to the West Coast), both cost-effective shipping areas.

The company's products are sold primarily under its customers' private labels and, to a lesser extent, brand names such as Colortex®, My Size®, and Velvet®. Orchids does not have supply contracts with any of its customers. Orchids' products are daily consumable items so order streams are fairly constant with no significant seasonal fluctuations. Changes in the national economy do not materially affect the market for Orchids' products.

Private Label Market and Outlook

In March 2016, the Private Label Manufacturers Association (PLMA) said that private label brands had reached approximately $118.4 billion in US sales in 2015, an increase of 2% over 2014 which was equal to the growth rate of national brands. The PLMA said that while the number of consumers cutting back on spending has stabilized, Americans were still pinching pennies. One-third of consumers no longer prefer the more expensive brand, having realized that the store brand offers better value for the money and is of higher-than-expected quality.



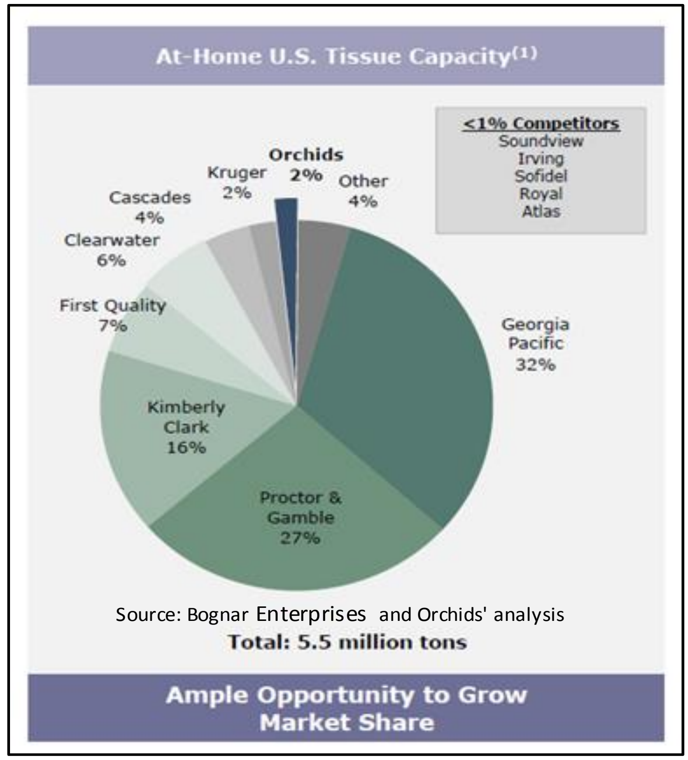
In January 2016, the statistics website Statista.com reported that US sales of private label paper products were approximately $3.8 billion in 2015. Toilet tissue accounted for the greatest percentage of sales at 44%, followed by paper towels at 37%, facial tissue at 10%, and paper napkins at 9% (see chart at right).

In September 2015, international consulting and engineering company Pöyry said that private label tissue market penetration in North America was currently 27%, up from 18% a decade ago. Pöyry cited increased availability of high quality private label tissue products and recession awakened frugality as some of the key factors driving the success of private label tissue products.

In a June 2015 sanitary paper product manufacturing industry report, IBISWorld said that large discount retailers such as Walmart (accounted for 9% of Orchids' converted product sales in 2014) and Target were increasingly focusing on private-label goods that can provide higher margins. IBISWorld expects this trend to continue over the next five years. However, competition from lower-priced imports is expected to attenuate US growth resulting in moderate industry growth averaging 1.9% annually in the six years to 2020.

Market and Competition

In June 2015, IBISWorld estimated the 2015 US sanitary paper product market at $13.3 billion with the tissue segment (paper towels, bathroom tissue, and paper napkins) at $2.8 billion. The overall industry is projected to grow at an average annual growth rate of 1.9% to $14.9 billion by 2021.



Dollar and variety stores, Orchids' primary target markets, realized sales of $67 billion in 2014. In September 2015, IBISWorld projected dollar and variety stores' average revenue growth to decline 1.3% annually to $61.5 billion by 2021 as competition from rivals such as Walmart, Target and Costco increases.

Competition in the value-end of the market is significantly affected by proximity, as freight costs represent a material portion of delivered product costs. Over the past five years, competitors (Clearwater Paper, Georgia-Pacific, Cascades, and Pacific Paper) have moved into Orchids' market areas, arguably drawn by attractive margins. The increased competition has reduced Orchids' competitive cost advantage and reduced gross margins from 29.2% in 2009 to 17.0% in 2010, and 16.3% in 2011. Orchids was able to reverse this downward trend as growing sales of higher margin converted products increased Orchids' gross margins to 22.4% in 2012, 24% in 2013. However, in 2014, gross margins fell to 18.7% due primarily to lower overhead coverage as the company shut down two of its older paper machines in September 2014 and started the construction and installation of a new paper machine. This reduced the absorption of fixed costs at Orchids' Oklahoma plant and required the company to purchase parent rolls in the open market. Gross margins fell further to 18% in 2015 due primarily to continued parent roll purchases in the open market in 1Q15 and an incident at one of the company's main converting lines which was out of commission for most of approximately eight weeks in 4Q15.

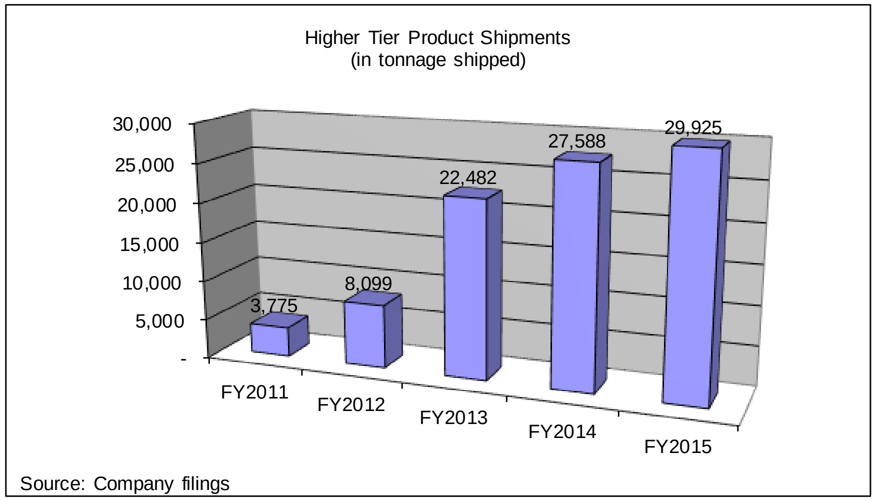
Clearwater Paper and Cascades are the only publicly held direct competitors. Revenue and gross margins for Orchids and its competitors are shown at right. These competitors' lower gross margins versus Orchids' could drive them to expand in Orchids' market, increasing pressure on Orchids' prices and margins.

	Clearwater Paper	Cascades	Orchids Paper
TTM Revenue (12/15)	$1.8B	$2.7B	$168.4M
TTM Gross Margin	13.7%	15.7%	18.1%

Strategy

Orchids aims to increase sales of its converted products, which yield higher margins. In June 2014, Orchids acquired Fabrica's US business, including certain manufacturing assets, and access to 19,800 metric tons of capacity each year to support the value, premium and ultra-premium requirements of the US market. The supply agreement with Fabrica provides access to an additional 7,700 tons in the first two years of the agreement for a total of up to 27,500 tons. The option for the additional tonnage expires at the end of 1H16. In 2Q15, Orchids began construction on an integrated tissue paper facility in Barnwell, SC with paper making capacity of between 35,000 and 40,000 tons per year and converting capacity of between 30,000 and 32,000 tons per year. The first converting line was operational at the end of 1Q16 and the second converting line is expected to be operational by the end of 2Q16. The paper machine is expected to be operational in 1Q17.

Orchids plans to expand into retail channels such as grocery stores, mass merchandise and other discount retail sectors. Initial efforts to expand into these other channels previously had limited success due to capacity constraints and the inability to produce higher grade products. However, these shortcomings have been overcome by investing in a new converting line and developing new, higher grade products.



The graph at right shows how shipments of Orchids' higher grade converted products have grown over the past five years. Growth was driven by sales of new higher quality products (with better paper, enhanced graphics, and improved embossing).

1Q 2016 Financial Results

Sales of $47.7 million were up 28% from the comparable period in 2015. Net income was $5.4 million or $0.52 per share versus net income of $1.2 million or $0.14 per share. We projected 1Q16 sales of $46 million and net income of $3.3 million or $0.32 per share.

Converted product (paper towels, bathroom tissue, and paper napkins) sales increased 21% to $45.3 million while parent roll (bulk tissue paper) sales were $2.5 million (there were no parent roll sales in 1Q15 due to the demolition of older paper machines resulting in no excess parent rolls to sell on the open market). The increase in converted product sales was primarily due to a 24% increase in tonnage shipped partially offset by a 3% decrease in net selling price per ton.

Gross margins increased to 23.8% from 12.8% primarily due to lower operating costs associated with the new paper machine in Oklahoma.

Selling, general and administrative (SG&A) expenses increased to $2.7 million from $2.5 million as professional fees and commissions increased. The company recognized $377,000 of amortization expense related to the intangible assets acquired in the Fabrica transaction. Operating income increased to $8.3 million or 17.3% of sales from $1.9 million or 5.1% of sales.

Liquidity - Based on our forecasts, Orchids should need to raise approximately $89 million in additional debt over the next six quarters in order to meet its financial obligations through 2017. We project increased interest payments through 2017. As of March 31, 2016, Orchids had cash of $8 million, a current ratio of 2X versus 0.9X for the paper products industry, and a debt/equity ratio of 0.7X versus 0.4X for the industry. Orchids' total debt has more than doubled over the past year and a quarter to over $95 million in 1Q16 from approximately $36 million at the end of 2014. The increase in debt was to fund the expansion into South Carolina and capital expenditures (details provided below).

Cash from operations of $8.9 million in the first three months 2016 was primarily due to cash earnings. Cash from operations, a $17.3 million net increase in debt, and a $4.8 million decrease in restricted cash, were partially offset by capital expenditures of $25.6 million and $3.6 million in dividend payments, resulting primarily in a $3.7 million increase in cash to $8 million as of March 31, 2016.

In June 2015, Orchids entered into an amended, five year, $187.3 million credit agreement with US Bank National Association. The agreement includes a $25 million revolving credit line, a $47.3 million term loan, a $115 million delayed draw term loan with a two year draw period, and an accordion feature allowing the revolving credit line and/or delayed draw commitment to be increased by up to $50 million at any time during the credit agreement. Advances under the facility bear interest at a variable rate of LIBOR plus a margin of 1.25% to 2.50% depending on the company's leverage ratio, or a base rate plus a margin of up to 0.25% at the company's option.

The credit agreement contains covenants that require Orchids to maintain specific fixed charge coverage and leverage ratios. As of March 31, 2016, the company was in compliance with those covenants.

In December 2015, Orchids received approximately $5.1 million in net proceeds from financing agreements related to capital expenditures at its Barnwell, South Carolina facility. This financing arrangement, structured with a third party financial institution associated with U.S. Bank and two entities majority owned by U.S. Bank, was designed to qualify under the federal New Market Tax Credit program. These loans bear interest at a fixed rate of 1.275%.

In September 2014, Orchids entered into an agreement with the Oklahoma Development Finance Authority (ODFA) whereby the ODFA agreed to provide the company up to $3.5 million to fund a portion of the cost of a new paper production line. The agreement provides for Orchids' Oklahoma state withholding payroll taxes to be placed into a revolving fund held by ODFA. Each year on September 1, beginning in 2015 and ending in 2020, the ODFA will return these state withholding taxes in the revolving fund to the company, up to an amount totaling $3.5 million. These amounts are recognized as a note receivable in other current assets in the balance sheet and in other income in the income statement. The company recognized income of $197,000 in 1Q16 related to this agreement.

Projections

Orchids' current (1Q16) annual run rate is approximately 93,600 tons of converted product out of Oklahoma and Fabrica. However, as the option to purchase an additional 7,700 tons annually from Fabrica ends in 2H16, we project a reduction in Orchids' run rate in this area to 89,800 tons from 93,600 currently. Helping to offset this reduction in tonnage should be the contribution from Orchids' new plant in South Carolina. Orchids' currently has commitments to sell out its first converted product line (annual capacity of approximately 15,000 tons) in South Carolina by the end of 2Q16, at which time the start-up of the second converting line (annual capacity of approximately 15,000 tons) is expected.

With contribution from Orchids' new plant in South Carolina, we project Orchids will sell total converted tonnage (from Oklahoma, Fabrica and South Carolina) of approximately 94,800 tons in 2016.

Revenue Model

	Tons Shipped	Selling Price/Ton	Revenue ($,000)
2014			
Converted	67,870	$ 2,039	$ 138,382
Parent Roll	4,922	$ 882	$ 4,342
Total	72,792	$ 1,961	$ 142,724
2015			
Converted	82,972	$ 1,941	$ 161,052
Parent Roll	7,436	$ 994	$ 7,394
Total	90,408	$ 1,863	$ 168,446
2016			
Converted	94,800	$ 1,995	$ 189,126
Parent Roll	5,500	$ 1,022	$ 5,621
Total	100,300	$ 1,942	$ 194,747
2017			
Converted	100,900	$ 2,051	$ 206,946
Parent Roll	8,500	$ 1,050	$ 8,925
Total	109,400	$ 1,973	$ 215,871

Source: Company filings and Taglich Brothers estimates

With a full year of production from the two converting lines in South Carolina, we project Orchids will sell total converted tonnage of 100,900 tons in 2017.

There are no sales contracts guaranteeing these orders. However, customer order streams are fairly constant and typically last several years.

We project no parent roll shipments in 2H16 as the company will be shipping any excess parent rolls from Oklahoma to South Carolina during this time frame while the new paper machine is under construction. This should limit parent roll sales to 5,500 tons in 2016. With the new paper machine expected to be operational in 1Q17, parent roll sales could commence as early as 2Q17. We project 8,500 tons of parent rolls sold in 2017.

We project 2016 selling prices of $1,995/ton for converted products and $1,022/ton for parent rolls, consistent with the 2.8% increase in paper selling prices projected by IBISWorld. For 2017, we project selling prices of $2,051/ton for converted products and $1,050/ton for parent rolls. Paper price gains are supported by the fact that falling demand is being outpaced by contracting supply which should result in slowly increasing prices.

	2012A	2013A	2014A	2015A	2016E	2017E
Conv. Tons	43,661	52,592	67,870	82,972	94,800	100,900
Total Tons	53,995	59,318	72,792	90,408	100,300	109,400
Conv. Ton %	80.9%	88.7%	93.2%	91.8%	94.5%	92.2%
Gross Margin	22.4%	24.0%	18.7%	18.1%	19.4%	21.4%

Source: Company filings and Taglich Brothers estimates

Orchids currently ships to customers on the East Coast and the new South Carolina location should reduce overall freight costs. However, as the new paper machine is not expected to be operational until early 2017, Orchids will be buying parent rolls in the secondary market in 2H16 which should constrain gross margins (see table at right). We project gross margins increasing in 2017 as converted product sales increase and the higher cost of purchasing parent rolls in the secondary market (as seen in 2014, 2015, and 2016 margins) will have been eliminated.

2016 - We project revenue of $194.7 million and net income of $16.4 million or $1.58 per share. The change in our projections (previously $190.7 million revenue and $14.3 million or $1.38 per share net income) reflects 1Q16 results.

We project SG&A expenses of $10.7 million in 2016 (of which approximately 1% or $1.9 million of sales are commission-related). Operating margins are projected to increase to 13.3% from 11.5% due primarily to gross margin improvement stemming from a full year of production from the more efficient paper machine and new converting line in Oklahoma. Interest expense is projected to increase to $1.2 million from $521,000 due to higher debt levels. Much of the interest associated with the added debt for the company's South Carolina project will be capitalized. The tax rate is estimated at 34.2%.

For 2016 we project Orchids will generate $29.2 million cash from operations primarily from cash earnings. Cash from operations will not cover our projected $94 million in capital expenditures (primarily for South Carolina facility) and $14.4 million in dividend payments requiring the company to raise approximately $74 million from increased debt. We project a $3.3 million decrease in cash to $1 million at December 31, 2016.

2017 - We project revenue of $215.9 million and net income of $21.2 million or $2.04 per share. The change in our projections (previously $212.5 million revenue and $19.4 million or $1.88 per share net income) primarily reflects continued growth in converted product sales driven by a full year of production from the two converting lines in South Carolina.

We project SG&A expenses of $11.3 million in 2017 (of which approximately 1% or $2.2 million of sales are commission-related). Operating margins are projected to increase to 15.8% from 13.3% due primarily to gross profit gains of approximately $8.5 million. Interest expense is projected to increase to $1.9 million from $1.2 million due to higher debt levels. Much of the interest associated with the added debt for the company's South Carolina project will be capitalized. The tax rate is estimated at 34.2%.

For 2017 we project Orchids will generate $38.6 million cash from operations primarily from cash earnings. Cash from operations will not cover our projected $52 million in capital expenditures (primarily for South Carolina facility) and $14.4 million in dividend payments requiring the company to raise $33 million from increased debt. We project a $710,000 increase in cash to $1.7 million at December 31, 2017.

Risks

Customer concentration
Three customers (Dollar General, Family Dollar and HEB) accounted for approximately 61% of total sales in 2015. Any substantial decrease or delay in sales to one or more of Orchids' key customers would harm sales and financial results.

Competition
Competitors have penetrated Orchids' operating region. More intense competition in the company's market has reduced some of its competitive cost advantages and put pressure on selling prices.

Orchids may not be able to sell the capacity from its expanded converting line
Underutilization of capacity could lead to unabsorbed overhead and gross margin compression.

Fabrica acquisition
In June 2014, Orchids acquired various assets and business operations from Fabrica. There can be no assurance that Orchids will fully realize the anticipated benefits of the transaction. Further, as a result of the Fabrica transaction, Orchids' indebtedness is now greater than it was prior to the acquisition.

South Carolina construction project
Orchids' South Carolina construction project began in 2015 with the first converting line operational at the end of 1Q16, the second expected to be operational in 2Q16, and the new paper machine expected to be operational in 1Q17. Total cost is estimated at $136 million over a two year period. There can be no assurance that the construction, installation, and ramp of production will proceed as scheduled, for the anticipated costs, or at all.

No reliance on contracts
Sales contracts are not the norm in the industry. Although orders typically result in multi-year revenue streams, there can be no guarantee as to their length.

Liquidity risk
Microcap stocks typically have small trading floats and very low trading volume and can lead to large spreads and high volatility in stock price. Orchids has 9.1 million shares in the float with an average daily volume of approximately 57,000 shares.

Miscellaneous risks
The company's financial results and equity values are subject to other risks, including competition, operations, financial markets, regulatory risk, and/or other events. These risks may cause actual results to differ from expected results.

Important Disclosures

As of the date of this report, Taglich Brothers, Inc. and/or its affiliates, own more than 1% of TIS common stock. Michael Taglich, President of Taglich Brothers, Inc., owns or has a controlling interest in 123,473 shares of TIS common stock. Robert Taglich, Managing Director of Taglich Brothers, Inc., owns or has a controlling interest in 5,197 shares of TIS common stock and 135,413 shares of restricted stock. Richard Oh, Managing Director of Taglich Brothers, Inc., owns 13,864 shares of TIS common stock. Doug Hailey, Director of Investment Banking at Taglich Brothers, Inc. and a Director of Orchids Paper Products Company, owns 44,150 shares of TIS common stock and 43,750 stock options. Taglich Brothers, Inc. had an Investment Banking relationship with the company mentioned in this report. In March 2004, Orchids Acquisition Group, Inc. was formed by Taglich Brothers, Inc. and Weatherly Group, LLC exclusively for the purpose of acquiring all of the outstanding shares of Orchids Paper Products Company, and was subsequently merged into the company. In July 2005, Orchids completed its initial public offering (of which Taglich Brothers, Inc. was the managing underwriter) and began trading on the American Stock Exchange under the symbol TIS.

All research issued by Taglich Brothers, Inc. is based on public information. From April 2008 to December 2012, the company paid a monthly monetary fee of $2,000 (USD) to Taglich Brothers, Inc. for the creation and dissemination of research reports.

General Disclosures

The information and statistical data contained herein have been obtained from sources, which we believe to be reliable but in no way are warranted by us as to accuracy or completeness. We do not undertake to advise you as to changes in figures or our views. This is not a solicitation of any order to buy or sell. Taglich Brothers, Inc. is fully disclosed with its clearing firm, Pershing, LLC, is not a market maker and does not sell to or buy from customers on a principal basis. The above statement is the opinion of Taglich Brothers, Inc. and is not a guarantee that the target price for the stock will be met or that predicted business results for the company will occur. There may be instances when fundamental, technical and quantitative opinions contained in this report are not in concert. We, our affiliates, any officer, director or stockholder or any member of their families may from time to time purchase or sell any of the above-mentioned or related securities. Analysts and members of the Research Department are prohibited from buying or selling securities issued by the companies that Taglich Brothers, Inc. has a research relationship with, except if ownership of such securities was prior to the start of such relationship, then an Analyst or member of the Research Department may sell such securities after obtaining expressed written permission from Compliance.

Analyst Certification

I, John Nobile, the research analyst of this report, hereby certify that the views expressed in this report accurately reflect my personal views about the subject securities and issuers; and that no part of my compensation was, is, or will be, directly, or indirectly, related to the specific recommendations or views contained in this report.

Public Companies Mentioned in this Report

Cascades (OTC PK: CADNF)
Clearwater Paper (NYSE: CLW)
Dollar General (NYSE: DG)
Family Dollar (NYSE: FDO)
Wal-Mart (NYSE: WMT)

Meaning of Ratings

Buy – The growth prospects, degree of investment risk, and valuation make the stock attractive relative to the general market or comparable stocks.

Speculative Buy – Long term prospects of the company are promising but investment risk is significantly higher than it is in our BUY-rated stocks. Risk-reward considerations justify purchase mainly by high risk-tolerant accounts. In the short run, the stock may be subject to high volatility and could continue to trade at a discount to its market.

Neutral – Based on our outlook the stock is adequately valued. If investment risks are within acceptable parameters, this equity could remain a holding if already owned.

Sell – Based on our outlook the stock is significantly overvalued. A weak company or sector outlook and a high degree of investment risk make it likely that the stock will underperform relative to the general market.

Dropping Coverage – Research coverage discontinued due to the acquisition of the company, termination of research services, non-payment for such services, diminished investor interest, or departure of the analyst.

Some notable Risks within the Microcap Market

Stocks in the Microcap segment of the market have many risks that are not as prevalent in Large-cap, Blue Chips or even Small-cap stocks. Often it is these risks that cause Microcap stocks to trade at discounts to their peers. The most common of these risks is liquidity risk, which is typically caused by small trading floats and very low trading volume which can lead to large spreads and high volatility in stock price. In addition, Microcaps tend to have significant company specific risks that contribute to lower valuations. Investors need to be aware of the higher probability of financial default and higher degree of financial distress inherent in the microcap segment of the market.

From time to time our analysts may choose to withhold or suspend a rating on a company. We continue to publish informational reports on such companies; however, they have no ratings or price targets. In general, we will not rate any company that has too much business or financial uncertainty for our analysts to form an investment conclusion, or that is currently in the process of being acquired.
