Command Security Corp

Rating: Speculative Buy

Juan Noble

MOC \$3.64 — (AMEX)

August 14, 2008

Command Security Corporation. (AMEX: MOC), headquartered in Lagrangeville, New York, provides uniformed security officers, aviation and support security services to a wide range of commercial, financial, industrial, aviation and governmental clients. Uniformed security services provided to airports and ancillary services and organizations account for two-thirds of the company's revenue. The rest consists mainly of armed and unarmed uniformed security personnel for access control, mobile patrols, traffic control, security console/system operators, fire safety directors, communication, reception, concierge and front desk/doorman operations.

FY2009 1Q results (\$ thousands), from an August 14, 2008 10-Q filing, and our 1Q estimates, are as follows.

Estimate Comment: 1QFY09 earnings exceeded our projection, as revenue exceeded our expectations, offsetting larger than expected cost of sales and operating expense margins.

Rating: Speculative Buy

Risks: Please review our latest research report (July 9, 2008) for a summary of the principal risks underlying the stock.

Meaning of Ratings

Buy

We believe the Company is undervalued relative to its market and peers. We believe its risk reward ratio strongly advocates purchase of the stock relative to other stocks in the marketplace. Remember, with all equities there is always downside risk.

Speculative Buy

We believe that the long run prospects of the Company are positive. We believe its risk reward ratio advocates purchase of the stock. We feel the investment risk is higher than our typical “buy” recommendation. In the short run, the stock may be subject to high volatility and continue to trade at a discount to its market.

Neutral

We will remain neutral pending certain developments.

Underperform

We believe that the Company may be fairly valued based on its current status. Upside potential is limited relative to investment risk.

Sell

We believe that the Company is significantly overvalued based on its current status. The future of the Company's operations may be questionable and there is an extreme level of investment risk relative to reward.

Some notable Risks within the Microcap Market

Stocks in the Microcap segment of the market have many risks that are not as prevalent in Large-cap, Blue Chips or even Small-cap stocks. Often it is these risks that cause Microcap stocks to trade at discounts to their peers. The most common of these risks is liquidity risk, which is typically caused by small trading floats and very low trading volume which can lead to large spreads and high volatility in stock price. In addition, Microcaps tend to have significant company specific risks that contribute to lower valuations. Investors need to be aware of the higher probability of financial default and higher degree of financial distress inherent in the microcap segment of the market.

From time to time our analysts may choose to withhold or suspend a rating on a company. We continue to publish informational reports on such companies; however, they have no ratings or price targets. In general, we will not rate any company that has too much business or financial uncertainty for our analysts to form an investment conclusion, or that is currently in the process of being acquired.

* The information and statistical data contained herein have been obtained from sources, which we believe to be reliable but in no way are warranted by us as to accuracy or completeness. We do not undertake to advise you as to change in figures or our views. This is not a solicitation of any order to buy or sell. Taglich Brothers, Inc. is fully disclosed with its clearing firm, Pershing, LLC, is not a market maker and does not sell to or buy from customers on a principal basis. The above statement is the opinion of Taglich Brothers, Inc. and is not a guarantee that the target price for the stock will be met or that predicted business results for the company will occur. There may be instances when fundamental, technical and quantitative opinions contained in this report are not in concert. We, our affiliates, any officer, director or stockholder or any member of their families may from time to time purchase or sell any of the above-mentioned or related securities. Analysts and members of the Research Department are prohibited from buying or selling securities issued by the companies that Taglich Brothers, Inc. has a research relationship with, except if ownership of such securities was prior to the start of such relationship, then an analyst or member of the Research Department may sell such securities after obtaining expressed written permission from the Director of Research.

As of the date of this report, we, our affiliates, any officer, director or stockholder, or any member of their families do not have a position in the stock of the company mentioned in this report. Taglich Brothers, Inc. does not have an investment banking relationship with the company mentioned in this report and was not a manager or co-manager of any offering for the company within the last three years.

All research issued by Taglich Brothers, Inc. is based on public information. In December, 2006, the company paid a monetary engagement fee of \$21,000 (USD) for the first year of creation and dissemination of research reports and will pay a monthly monetary fee of \$1,750 (USD) to Taglich Brothers, Inc. for these services after the first year.
